> TRADITIONAL AND MODERN

AMU is one of the best academic centres in Poland. Its beginnings and fame go back as far as early 16th century. At that time, it was already known for its scientific and scholarly achievements, its attractive study programs and excellent infrastructure.

AMU offers 202 majors and specializations. It has almost 29 thousand two-step B.A. and M.A. students and one-step M.A. students combined. There are also 885 Ph.D. students studying at AMU Doctoral Schools. AMU also offers a number of post-graduate studies and special courses. According to the Prespektywy monthly, AMU is one of the three best universities in Poland. An AMU diploma opens the doors to attractive careers.

> A EUROPEAN UNIVERSITY

AMU is a member of the EPICUR Consortium, a European Partnership for an Innovative Campus Unifying Regions. Members of the consortium include 9 universities from seven European countries.

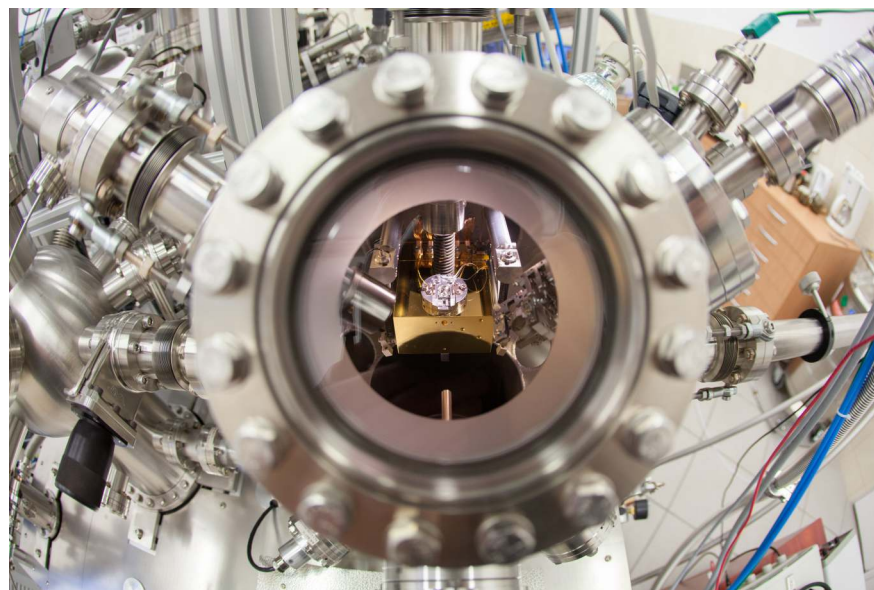

The supranational charter of the organization emphasizes one of the goals of the consortium which is to increase student and staff mobility as well as to support quality, integration and competitiveness of the European university school education.

EPICUR has received from the European Commission an 18 million Euro implementation grant for its development until the year 2030.

> A RESEARCH UNIVERSITY

AMU belongs to the elitest ten Polish universities. Within the framework of Excellence Initiative, the university acquires additional financial resources for the development of research and for internationalization facilitating effective competition with the best academic centers in Europe and around the world.

AMU has a number of specialized research centres such as:

- > 14C AMS Laboratory (LAMS)
- > Adam Mickiewicz University Centre for Innovation and Technology Transfer
- > Centre for Advanced Technologies
- > Centre for Migration Studies
- > Centre for Open Humanities
- > Centre for European Integration
- > Centre for Integrated Environmental Monitoring
- > Edith Stein Research Centre
- > Metropolitan Research Centre
- > NanoBioMedical Centre
- > Polish Archaeological Institute at Athens
- > Research Centre for Public Engagement of Women

> AN ENGAGED UNIVERSITY

AMU was the first Polish University to receive its accreditation from the Accreditation Council for Entrepreneurial and Engaged Universities (ACEEU) and the title of an engaged university. This is the only accreditation to evaluate the university's social engagement and commitment upon the social environment, cooperation with non-university partners and the implementation of the idea of social responsibility including sustainable development.

For years, AMU has been investing in ecological solutions such as renewable energy sources and excels among Polish university schools in the 'green ranking' by the World University Ranking 'Green Metric'.

> AN OPEN UNIVERSITY

Following the principles of the equal opportunity and anti-discriminatory policy, AMU's organizational culture promotes equal treatment, appreciates diversity and protects the dignity of all people irrespective of their gender, age, disabilities, ethnic and national origin, political convictions, race, confession or its absence, sexual identity or psychosexual orientation.

AMU's culture of integration includes among others effective support to the disabled, innovations in the process of teaching, the elimination of architectural barriers and broadening its scope of assistance and care.
